PROBLEMAS DE JUAN CARLOS MORRA

Juan Carlos Morra (1906-1964) nació en la Ciudad de Córdoba Aprendió a jugar al ajedrez hacia 1926 y en 1928 ganó el torneo de 2a. Categoría de la Biblioteca Velez Sarsfield, única institución que en ese entonces fomentaba el juego ciencia en Córdoba. Ascendió a primera categoría en 1930.

A partir de 1929 empieza a componer sus primeros problemas y a tener una inclinación bien definida hacia esa rama del ajedrez y en ese año se presenta por primera vez en un concurso internacional obteniendo el segundo premio.

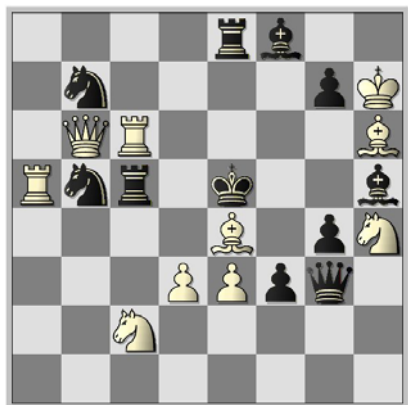

A mitad de la década del 40 tenía alrededor de 250 obras publicadas en periódicos y revistas argentinas y extranjeras y se hallaba especialmente abocado a redactar notas didácticas en la revista “Enroque” , que editaba Santiago Oliva en Necochea.

En 1940 Roberto Grau reconoció sus méritos en un artículo publicado en la revista “Leoplan” (9/10/40), donde lo define como “un gran problemista argentino” que, excluyendo a Ellerman, era el máximo exponente del arte de los problemas en esa época que ya era, hasta ese momento, autor de mas de 500 problemas, algunos de los cuales ameritaron premios, distinciones y elogios en concursos internacionales.

Demostró una permanente actualización con las tendencias del mate en dos directos, las que cultivó con gran técnica. Además, concretó problemas con la estipulación de ayuda, que cobraba vigor en el ámbito de la composición artística.
