REPORT

Especial thanks to all the participants, to Felipe Guanca and Sebastián Palomo, both of them members of the Unión Argentina de Problemistas de Ajedrez (UAPA)

I have considered the non-binding opinion, of three solvers who have qualified the problems with the score of 0-4 (including half-scale scores)

Therefore, I have taken into account the technical, specific aspects of this genre, and appreciation of the solvers in opportunity to solve the riddles presented by composers .

It is noteworthy, the participation of children and young people (women and men) in the competition, in its vast majority of Russian nationality. In this regard, I take this opportunity to congratulate the instructors and leaders of the chess clubs of the city of Magadan

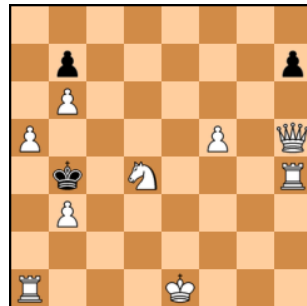

A special thanks to Maestro Pal Benko, for his participation, and for the sending of a problem with an algorithm containing a remarkable number of twins, all of them configuring the letter S. An expression of wishes of "Salute" or "Saludos", that I extend to all the participants
