CORRECCIONES–RECREACIONES: PROPUESTAS Y ENSAYOS**

**PARTE XV**

**Mario G. García**

**Composers who perform the corrections and recreations**

**Peter S. Krug (Austria), Daniel Keith (France), Yury Bazlov (Russia) and Mario G. García (Argentina)**

**INTRODUCTION**

- Are proposed corrections (fixes) - subject to verification and acceptance from the point of-view-technical.-

- Selection of studies corrected, was not performed considering the artistic quality of these, but simply for the purpose of achieving compliance with the slogans and in a manner-reasonably-unambiguous

- As will be noted, the great majority of the proposals should be included in the category of corrections, since has been maintained the thematic idea and sequences planned by the authors. It is, in many cases it is possible to perform an "improvement", but this would be considered a "recreational" or presenting a "new version" of the study.

- Surely, there are other proposed corrections to the studies presented in this section elaborated by others analysts, composers, or by the same author, and have not detected. Also, there is a reasonable possibility of error in the proposals presented, which is planned addition of a separate that includes among others, the following: a) Proposals for new corrections; b) cancellations; c) proposals for recreation or new versions, etc.

Included in the report several studies "observed" ("No fulfills the slogan" - "dual major" -another solution) that are not contained in the databases of end made by Harold van der Heijden.-

**- Se proponen correcciones (arreglos)- , sujetos a verificación y aceptación desde el punto de vista técnico.-**

**- La selección de estudios corregidos no se ha realizado atendiendo a la calidad artística de éstos, sino simplemente a los efectos de lograr el cumplimiento de las consignas y de una forma, razonablemente univoca**

**- Como se notará, a la gran mayoría de las propuestas se las deberían incluir en la categoría de correcciones, ya que se ha mantenido la idea temática y las secuencias planeadas por los autores. Es decir, en muchos casos es posible, realizar una “mejora”, pero esta sería considerada una “recreación” o la presentación de una “nueva versión” del estudio.**

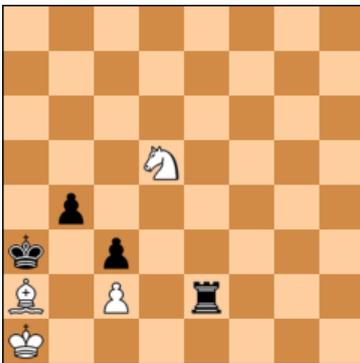

**- Seguramente, existen otras propuestas de correcciones a los estudios que se presentan en esta sección elaboradas por otros analistas, compositores, o por el mismo autor, y que no hemos detectado. Así también, existe una razonable**

posibilidad de error en las propuestas que se presentan, por lo que se ha previsto la adición de una separata que incluya entre otros, los siguientes puntos: a) nuevas propuestas de correcciones; b) anulaciones; c) propuestas de recreaciones o nuevas versiones, etc.

- Se incluyen en el informe estudios “observados” ( “No cumple la consigna”- “dual de importancia” -otra solución) que no están contenidos en la bases de datos de finales confeccionadas por Harold van der Heijden.-
