Coordinator of Tournaments (UAPA)

## REPORT

In a first stage I have selected problems that I have considered of interest to include in the verdict, without establishing an order of merits

These problems have been rated by three solvers with the score of 0-4 (including half-scale scores)

Therefore, I have taken into account the technical, specific aspects of this genre, and appreciation of the solvers in opportunity to solve the problems presented by composers.

Considering the significant amount of entries surely, several of the problems that were not included in the award, are very appropriate for other contests

Especial thanks to all the participants, to Felipe Guanca and Sebastián Palomo, both of them members of the Unión Argentina de Problemistas de Ajedrez (UAPA)
